EASY LED **CONTROL**

Tecatlantis Dimmer Switch With Timer

Creates sunset and sunrise

Input / Output : 12 VDC to 24 VDC, Ø2.1 DC Socket
Max Current: 5A

Dimensions: 9x3,2x7cm

PT O EASY LED Control é um dispositivo que permite que as luminárias EASY LED e EASY LED UNIVERSAL tenham mais autonomia, possibilitando a programação do seu funcionamento. O controlador é ligado à alimentação das luminárias e programado com as horas nas quais se pretende que as luminárias liguem e desliguem. Na hora programada, as luminárias vão ligar e desligar de forma gradual, simulando o efeito do nascer e do pôr-do-sol.

FR L'EASY LED CONTROL est un dispositif qui permet que les rampes EASY LED et EASY LED UNIVERSAL ayant plus autonomie, permettant la programmation de leur fonctionnement. Le contrôler est connecté aux rampes et configuré dans les heures désirées. À l'heure prévue, les rampes s'allument et s'éteindre progressivement, simulant l'effet du lever et du coucher du soleil.

GB EASY LED Control is a device which allows the EASY LED and EASY LED UNIVERSAL light units to have more autonomy, allowing the configuration of their operation. The controller is connected to the power supply of the light unit and programmed with the times for the lighting to switch on and off. At the scheduled time, the light units will turn on and off gradually, simulating the effect of the sunrise and the sunset.
